1. Introduction

This report gives an update on the current status of PROFOUND Deliverable D7.4: 'Networking event to encourage partnership working' (scheduled to be delivered by month 34).

The Online Innovation Factory (OIF) platform developed as part of Deliverable 7.1, together with Deliverable 7.2: 'Promotion of at least one falls prevention reference site, project or technology' provide the basis for the delivery of D7.4, in that the seminar presentations and presence at networking events outlined in this report were used to showcase these aspects of PROFOUND WP7.

The delivery of D7.4 builds upon the launch of the OIF at the inaugural European Falls Festival (EUFF) held in Stuttgart on 24-25th March 2015 as detailed in D7.3.

During the course of the remainder of 2015, and into early 2016, the presence of the OIF and the PROFOUND project was promoted across a number of channels, and at events across three separate member states.

The public area of the PROFOUND website acts as the face of the project providing information to the community and the general public about the project. It is primarily directed at falls-related healthcare professionals and practitioners and also aims to inform members of the public (older people and their formal and informal carers) as well as European Institutions and falls-related organisations.

The OIF areas of the website can be viewed as a public resource but the additional functionalities (including the ability to initiate topics, manage discussion on own topics, contribute to other users topics and see comments) are only available to users logged in to the user login area of the PROFOUND website

<http://profound.eu.com/forums/forum/innovation-factory/>.

Users are advised upon logging in to PROFOUND that any information that they share on the website, either in the form of discussion content, uploaded research & briefing materials, or video sharing file formats, is, unless specifically stated, liable to be copied and redistributed by other users given the collaborative nature of the website. This also applies to users of the Online Innovation Factory.

2. OIF Promotion & Networking events

Working in partnership with the ProFouND consortium and the European Connected Health Alliance (ECHAlliance) International Network of Connected Health Ecosystems, the OIF, its functionality and the promotion of best practice reference sites, was introduced and promoted to a range of stakeholders.

2.1 Connected Health for Falls Prevention & Monitoring

This seminar, part of the Connected Health Innovation Centre seminar series held at the University of Manchester, took place on 16th September 2015.

Over 50 delegates attended from a range of backgrounds including academia, charity/third sector, the public sector (local authorities & NHS), commissioners and providers of services and industry.

The seminar highlighted the work of ProfouND, together with the FARSEEING initiative through presentations from Dr Helen Hawley Hague (University of Manchester) and Professor Dawn Skelton (Glasgow Caledonian University).

The OIF was discussed as part of the presentations, focusing as they did on ICT solutions for falls detection, monitoring & prevention.

A full list of registered delegates and CHIC seminar invitation is at Annex A.

2.2 International Network of Connected Health Ecosystems

The ECHAlliance is a pan European 'connector', whose Ecosystem network brings together, across more than 25 Ecosystems in Europe, the USA, Canada & China, a community of stakeholders interested transforming the delivery of health & social care through the use and deployment of digital, mobile, and wireless technology.

Each ecosystem is a permanent multi-stakeholder arrangement, bringing together groups that meets at least four times a year in each region or country in which they operate. They bring together in a single place and at the same time multiple stakeholders united across a common theme.

Through engaging with the ECHAlliance network of connected health Ecosystems, WP7 has showcased the work of ProFouND and fostered engagement with a wide community across Europe who are working on collaborative research and development of technology for falls monitoring and prevention.

Details of the three promotion and networking events in Nice, Valencia, and Manchester are detailed below.

2.2a: Nice, France

The work of WP7 and the OIF formed part of the agenda for the inaugural Nice Ecosystem, the first of its kind in France, on 10th September 2015. The event focused on e-health and active ageing.

Through connections with the Manchester Connected Health Ecosystem, ProFouND & WP7 was presented to the delegates in the morning session ('An International community on Digital Health and Active & Healthy Ageing') as part of the 'Greater Manchester: case study of an existing ecosystem and projects' presentation (Annex B).

The OIF was highlighted as a valuable resource for falls professionals across academia, industry, and the healthcare and public sector.

The press cutting below from the ECHAlliance website (log in required) highlights the scale and breadth of the event, as well as drawing attention to the promotion of the work of ProFouND.

More than 150 organisations joined the launch event of Nice's Ecosystem, exploring the strengths and challenges facing the region in digital health, active and healthy ageing and the Silver Economy.

The multi-stakeholder working group participated in a whole day of presentations, debates and networking opportunities, showcasing:

- Policy-makers, such as the NICE City council and metropolis, the Regional Council of PACA, the Regional Health Agency of PACA, the European Commission;
- Health & social care providers, such as the University hospital of NICE;
- Research organisations, such as the INRIA and the I3S lab;
- Expert centres, such as France Silver Eco and the CIU Santé;
- Private insurance/mutual fund, AG2R La Mondiale;
- Companies, such as Healthways, Tunstall, Orange Healthcare, Sanofi, Accellis, Ignilife, Feeligreen;
- Clusters and innovative projects supports, such as BPI France, the AAL Programme, and the competitiveness clusters Eurobiomed and Solutions Communicantes Sécurisées (SCS).

Fellow ECHalliance Ecosystem, the Manchester Connected Health Ecosystem, joined the speakers to present an update of the achievements of the Manchester Ecosystem and its work on the PROFOUND EU project on falls prevention.

2.2b: Valencia, Spain

As part of the promotion of the 'Integrated Care at Home in Departamento de Salud Valencia-La Fe' best practice reference site as contained in the European Innovation Partnership Active & Healthy Ageing (EIP-AHA) report 'Reference Sites: Excellent innovation for ageing - European Guide', WP7 engaged with a number of partners in Valencia. This included Dr Lucas Donat Castello from the Hospital at Home and Telemedicine of Health Department La Fe, working in the research unit headed by Dr. Valdivieso and Dr. Traver on the EIP AHA Valencia Reference Site. The work of ProFouND and WP7 is of particular relevance given the work their unit is doing on predictive models of factors related to complex chronic patients, and also in the field of remote monitoring of elderly patients.

The Valencia reference site formed part of the agenda as one of the innovative projects currently being undertaken in the region.

Discussions also took place prior to the event, and during the course of, with Dr Antonio Cano MD, Professor of Obstetrics and Gynaecology, Department of Paediatrics, Obstetrics and Gynaecology, University of Valencia, and project lead for the Valencia Ecosystem.

WP7 presented at the launch of the Valencia Ecosystem on 15th October 2015. The agenda for which is at Annex C.

2.2c: Manchester, United Kingdom

The Manchester Connected Health Ecosystem took place on 14th January 2016 on the subject of 'Active & Healthy Ageing', with presentations on the work of ProFouND and the OIF and an interactive workshop session (Annex D).

ProFound consortium director Prof. Chris Todd outlined the technology elements of the programme (the ProFouND website, information forum, ProFouND APP, and use of social media) before Carmel Dickinson & Dan Morley (WP7) presented in more detail on the OIF.

A breakout group in the workshop discussion focussed on 'Falls Prevention & Monitoring' with the work of the OIF being highlighted in this discussion as a vehicle for sharing best practice and building communities of interest across geographic, institutional & thematic boundaries.

UoM Informatics @Man_Inf - Jan 14
Chris Taylor opening the Jan #McrEcosystem Meeting 'Active & Healthy Ageing' @GM_AHSN @TweetsbyMSP

Source: www.twitter.com

@Man_Inf

@ProFouNDEU

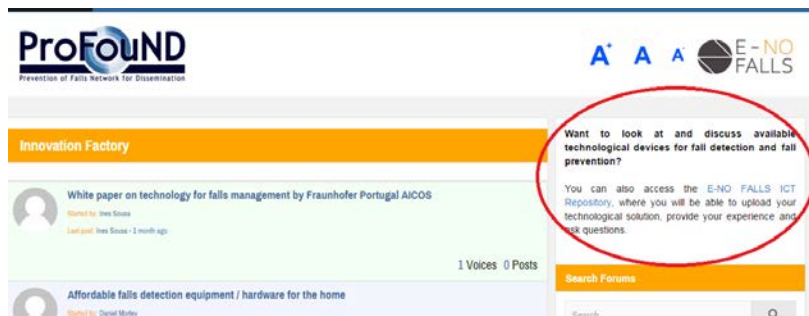

The Manchester Ecosystem was attended by over 65 delegates from a range of backgrounds across local government, NHS, industry and academia. A full list of registered delegates is at Annex E.

All registered delegates were sent follow up details of the event slides together with further promotion of the OIF (Annex F).

4 Conclusions & Next Steps

The OIF has been well received to date, with 11 challenges currently under discussion.

E-NO Falls promotes the OIF on their ICT Repository for Falls Technology, and ProFouND promotes the ICT repository on the OIF site.

(Source: www.profound.eu.com/forums/forum/innovation-factory/)

(Source: www.e-nofalls.eu/ictrepository/)

In addition to presentations at the events outlined above, and cross platform promotion, WP7 is developing a webinar to take place in February in order to engage further with interested parties.

The webinar is being developed in conjunction with E-NO Falls, and will consist of a broad range of partners to ensure maximum interest across the Action Group, including:

- a dedicated E-NO Falls / OIF presentation;
- business models / funding possibilities for new technologies development and deployment
- round table of 'reference sites' to share their experience in technology deployment & innovative procurement
- insights from the European Commission
- industry engagement to provide a multinational perspective
- discussion on how align the outcomes of this debate with the Renovated A2 Action Plan, including general/specific objectives specifically reflecting the A2 future vision on technologies

It will be promoted via invitation to a broad range of partners including the AHA A2 Action Group, and the ECHAlliance Connected Health Ecosystem network.

Connected Health Innovation Centre Seminar Series

September Seminar: "Connected Health for Falls Prevention & Monitoring"

Date: 16th September 2015

Time: 2pm-4pm

Venue: The Congregation, Vaughan House, University of Manchester

Please [click here](#) to view a campus map.

The Connected Health Innovation Centre is pleased to announce that following last year's extremely successful seminar series, the next seminar will take place on 16th September 2015.

Focusing on the theme of 'Falls Prevention & Monitoring,' this seminar will be an opportunity to hear from Dr Helen Hawley Hague (University of Manchester) and Professor Dawn Skelton (Glasgow Caledonian University.) Specialising in the area of Falls Prevention, Helen and Dawn are involved in the ProFouND (Prevention of Falls Network for Dissemination) Thematic Network and the FARSEEING research project which focus on promoting independent living for older adults and preventing fall-related injuries.

Context: Falls in older people can lead to a number of problems such as injury, isolation, anxiety and greater dependence on carers. [ProFouND](#) is an EU-funded initiative dedicated to promoting best practice and innovative solutions for falls prevention amongst European health and social care authorities. Focusing on the potential of ICT devices, [FARSEEING](#) supports better prediction and identification of falls whilst supporting older people to live independently. This seminar will explore how technology can be used as a tool to prevent falls and to improve the wellbeing of older people.

If you would like to join us on 16th September 2015, please click on the registration link below.

Tel : +334 89 98 11 24 / +336 61 51 01 33

With the participation of
Pr. Olivier GUERIN, Deputy Mayor for Health
Brian O'CONNOR, Chair at the ECHAAlliance, Board Director at CCHAAlliance

With the exceptional contribution of representatives of the European Commission

Dr Karim BERKOUK, Deputy head of Unit, DG Research and Innovation

Dr Loukianos GATZOULIS, Economic and policy analyst, DG Health and Food Safety

PROGRAM

Moderator : Pr Alain FRANCO
Honorary Professor of Medicine
Past Président of International Society for Gerontechnology

8:15 Registration

8:30 Welcome to Nice, European strategic place for eHealth and Active Ageing

Pr. Olivier GUERIN, Deputy Mayor for Health, City Of Nice
Brian O'CONNOR, Chair at the ECHAlliance, Board Director at CCH Alliance

9:00 Regional Health Agency : Health & Ageing strategy

Marie-Claude DUMONT, Medical Advisor to the CEO, regional Health Agency PACA

9:15 Provence Alpes Côte d'Azur : Innovation Strategy and Smart Specialisation

Bertrand FRIBOURG, Head of Innovation project and Digital Economy, Regional Council Provence Alpes Côte d'Azur

09:30 Strengths and assets of the local ecosystem : relevant stakeholders

Academics and medical authorities

Marc BARRET, in charge of International & European Relations, INRIA
Nicolas ALEXANDRE, Referent Europe's Innovation Cell of the Nice University Hospital

National and Regional reference centers

Luc BROUSSY, President, France Silver Eco
Stéphane SCHNEIDER, President, CIU-Santé

Private Funder

Stéphane SEBASTIANI, Head of Regional Delegation Social Network AG2R La mondiale

10:45 Coffee break

11:15 An International community on Digital Health and Active & Healthy Ageing

The Global Connector: international alliances in Europe, North America and China

Brian O'CONNOR, Chair at the ECHAlliance, Board Director at CCHAlliance

Greater Manchester: case study of an existing ecosystem and projects

Dan MORLEY, Business Development Manager, University of Manchester

Opportunities for the Ecosystems: international cooperation & visibility

Julien VENNE, Strategic Advisor at ECHAlliance

12:00 Lunch - Networking - B2B matchmaking

Lunch offered on site

13:00 Showcasing innovators

Healthways, *Well-Being Improvement*, Oliver HARRISON, Richard DAUPHIN

Laboratory I3S, Stéphane LAVIROTTE

Feeligreen, Lara RIBEIREX

Tunstall, *new models of care to support older people*, Joe KILLEN, Alain MONTEUX

Orange Healthcare, Elinaz MAHDAVY, Joëlle BRAIVE

Ignilife, Fabrice PAKIN

Sanofi, *DIABEO project*, Pascal LAMAURY

Accelis, Patrick MALLEA

14h15 European Union initiatives and funds for Healthy Ageing, Innovation and Growth

Nice European approach

Sebastien VIANO, Director European funds, Metropolis Nice Côte d'Azur

3rd Health program

Dr Loukianos GATZOULIS, Economic and policy analyst, DG Health and Food Safety, European Commission

Horizon 2020

Dr Karim BERKOUK, Deputy head of Unit, DG Research and Innovation, European Commission

15h15 Innovation support & Funding opportunities

BPI France, Tools for funding innovation

Delphine GARCIA, in charge of Innovation, BPI France

Eurobiomed, for competitiveness of e-health companies

Marianne MORINI, Responsible Business Support and territorial projects Eurobiomed

Pôle SCS, Keys factors successes for e-health solutions

Fabienne DE TOMA, Project manager & innovation, Pôle SCS

15:45 Nice & Provence Alpes Côte d'Azur Ecosystem : Next steps

16h00 Conclusion & Closure

17h00 Inauguration of 27Delvalle

ABOUT THE EVENT...

Registration

Before September the 1th, 2015

Free and mandatory on EventBrite :

VILLE DE NICE

VLC-HEALTH

HEALTHY LIVING AND ACTIVE AGEING

VALENCIA

EUROPEAN CITY COMMITTED TO INNOVATION IN HEALTHY LIVING AND ACTIVE AGEING VLC- HEALTH ECOSYSTEM

Part of the ECHAAlliance International Network of Ecosystems

Valencia, October 15th 2015

Venue: Botanical Garden of the University of Valencia

OBJECTIVE

Health and social care provision in our environment is facing an unprecedented challenge due to population ageing, with an increasing demand for services that entails a strong financial pressure. Facing this situation, the creation of eHealth Ecosystems is being fostered in the framework of the European Innovation Partnership on Active and Healthy Ageing (EIP-AHA), an initiative of the European Commission comprising the entire value chain of research and innovation to better integrate and coordinate all actors at all levels: European, national, regional and local levels, and achieve a critical mass that helps to create innovative solutions to face up to the progressive ageing of European population.

In this context, we present VLC-Health Ecosystem, initiative promoted by the University of Valencia, the University of Valencia Science Park and INCLIVA Health Research Institute, as a stable platform for fostering collaboration between the system of innovation in health and social care and wellbeing key actors in Valencia and invite all the related organizations and companies to join this initiative.

PROGRAM

09:00 - 09:30 OPENING AND WELCOME

09:30 -11:00 SESSION 1: VALENCIA, A EUROPEAN CITY COMMITTED TO INNOVATION IN HEALTHY LIVING AND ACTIVE AGEING

Innovation for Healthy Living & Active Ageing: policies, funding opportunities & projects

Valencian Health Strategy and Digital Services. Regional funding opportunities for innovation.

Óscar Zurriaga. General Director for Research, Innovation, Technology and Quality, Conselleria de Sanitat (Valencia Regional Health Department)

Spanish funding opportunities for Innovation in Health and Ageing

Cecilia Hernández. Head of Department of Health, Bioeconomy, Climate & Nature Resources, Spanish Centre for the Development of Industrial Technology - CDTI

A healthy and active ageing agenda in Europe. Outcomes of EIPAH and future opportunities

Inés García-Sánchez. Policy Officer, Innovation for Health and Consumers. DG Santé, European Commission

Key innovative projects in Health and Wellbeing in Valencia

Presented by representatives of the main organisations of the system of innovation in health and social care and wellbeing

- EIP AHA Commitments
- Reference Site EIP AHA
- I2CV – Valencian Association for the Promotion of Research and Innovation Projects for the Improvement of Quality of Life
- Horizon 2020 and EU Health Programme Projects

11:00 -11:30 Networking Coffee

11:30 -12:30 SESSION 2: VLC- HEALTH ECOSYSTEM

An Ecosystem within an international Network: Why? Which objectives? Which benefits?

Brian O'Connor. Chair of the European Connected Health Alliance-ECHAlliance

VLC-Health Ecosystem

Main topics and priorities, roadmap and next steps

Antonio Cano. Professor of the Department of Paediatrics, Obstetrics and Gynaecology, Universitat de València. Head of Service, Clinic University Hospital – INCLIVA

Mapping of main actors of the system of innovation in health and social care and wellbeing in Valencia (education & research centres, clusters, incubators, companies, health & social care providers, funders, investors, policy-makers, local authorities, citizens and patients representatives,...)

Short presentation by some key stakeholders

12:30 -14:00 SESSION 3: ROUND TABLE “EXISTING HEALTH ECOSYSTEMS AND PROJECTS IN HEALTHY LIVING AND ACTIVE AGEING”

With the participation of the representatives of DG Santé, ECHAlliance, other EU Health Ecosystems, members of EIP AHA, and Valencian key stakeholders

Moderator: Brian O'Connor. Chair of the European Connected Health Alliance-ECHAlliance

Debate with the room / Questions & Answers

14:00-16:00 Networking Lunch

For online registration please click here [click here](#) (deadline: October 7)

'Active & Healthy Ageing'

Thursday 14th January 2016

MSP CityLabs, Nelson St, Manchester M13 9NQ

Meeting Agenda

10:00 - 10:30	Tea, Coffee, Registration	
10:30 - 10:40	Welcome & Introduction Update on the Manchester Ecosystem	Chris Taylor - Director, (Manchester Ecosystem)
10:40 - 11:05	'Research priorities and the opportunities for technology'	Chris Phillipson – Director, (MICRA)
11:05 - 11:30	'Ageing well in work'	Jan Hopkins – European Project Lead (GM Public Health Network)
11:30 - 11:55	'Age Friendly Manchester – building an Age Friendly City'	Paul McGarry - Strategic Lead (Manchester City Council)
11:55 - 12:30	Breakout: Identifying Opportunities <i>How can connected health contribute to active & healthy ageing?</i>	All
12:30 - 13:30	Networking Lunch & Market Place	
13:30 - 14:05	Breakout: Developing Projects <i>What needs to happen to pursue the opportunities identified?</i>	All
14:05 - 14:15	ECHAAlliance update	Liz Ashall-Payne - Outreach Co-ordinator (ECHAAlliance)
14:15 - 14:40	ProFouND - best practise in falls prevention using novel ICT solutions	Chris Todd – Programme Director (ProFouND Consortium)
14:40 - 14:55	Technology & Age Friendly Living – real world examples: 'Project Mario - Robots for people with Dementia'	Andy Bleaden - Funding & Programmes Manager (Stockport Borough Council)
14:55 - 15:00	Close & Further Networking	

'Active & Healthy Ageing'

Thursday 14th January 2016

Manchester Ecosystem- GM AHSN Meeting 'Active & Healthy Ageing'

Thank you for attending Thursday's Manchester Ecosystem - GM AHSN Meeting on 'Active & Healthy Ageing'.

Presentations Now Available

We would like to thank our fantastic speakers Jane Macdonald, Chris Phillipson, Jan Hopkins, Paul McGarry, Chris Todd & Andy Bleaden for their excellent presentations. The slides are now [available here](#).

To see the impact of the event on Twitter, view our [Storify](#).

PRoFouND Online Innovation Factory

Falls and the risk of falling are a major problem for healthcare systems across Europe. The PRoFouND initiative disseminates best practice and research into falls prevention across Europe, and has a particular focus on the use of IT technologies to develop novel solutions for falls prevention, monitoring & detection. The [slides](#) contain more detail on the programme.

If you want to discuss the challenges, desired outcomes, solutions, and different implementations of technology for falls, and learn from best practice in leading reference sites, visit the [Profound Online Innovation Factory](#).

Workshop Output

Work is under way to collate the output from the 'Identifying Opportunities for Connected Health to contribute to Active & Healthy Ageing' Workshop. This will be circulated to attendees in the coming weeks.

We look forward to seeing you at the next Manchester Ecosystem - GM AHSN Meeting on Thursday April 14th 2016 at Citylabs. Details will be announced shortly.

If you would like to contact the Manchester Ecosystem team directly, please get in touch by emailing daniel.morley@manchester.ac.uk or miriam.belfield@manchester.ac.uk

The Manchester Ecosystem brings together providers and commissioners of health and social care, world-class academic research, city-region government, patients and citizens, major international companies and innovative SMEs, in a long-term partnership committed to: 'making Connected Health Happen'.

Manchester Informatics is the University of Manchester's virtual research institute; connecting over 600 researchers in communities spanning the digital sphere. You have received this email because you have previously shown an interest in Mi or participated in one of our events.
