If you work with older adults in long term care, acute care, home care or in the community, this five-week e-learning course will help you acquire the knowledge and skills needed to apply an evidence-based approach to the prevention of falls and fall-related injuries. Through online, instructor-facilitated learning modules you will:

- study four to six hours per week
- learn how to design, implement and evaluate a fall prevention program

Upon course completion you should be able to:

- define the scope and nature of the problem of falls
- provide fall risk identification and assessment
- provide a selection of prevention interventions reflecting evidence-based strategies
- understand social policy and context
- provide application of a program planning model
- evaluate the effectiveness of a fall prevention program

Dates: Oct. 20 to Nov. 24, 2017

Fee: \$225 plus \$11.25 GST

Instructor: Phil Groff, PhD

Textbook: *Fall Prevention Programming* (2nd edition), by Vicky Scott, PhD, RN, through amazon.com (required reading)

The CFPC is an evaluated course, developed by a team of experts in fall prevention, adult education and clinical practice under the leadership of Dr. Vicky Scott, with funding provided by the Public Health Agency of Canada, Population Health Fund.
