1. Introduction

This report aims to present the current status of ProFouND Deliverable D7.3: Networking event to encourage partnership (scheduled to be delivered by month 25).

The Online Marketplace and Innovation Factory (OIF) platform developed as part of Deliverable 7.1 is to be used to achieve both this Deliverable (7.3; scheduled to be delivered by month 25), and that of Deliverable 7.2: Promotion of at least one falls prevention reference site, project or technology (again scheduled to be delivered by month 25).

As outlined in the previously submitted report on Deliverable 7.1, the European Falls Festival (EUFF) held in Stuttgart on 24-25th March 2015 at the Robert Bosch Krankenhaus was to act as this networking event, with the OIF being displayed and discussed during the course of the festival, as well as during the ProFouND Partner meeting held on Monday 23rd March.

The public area of the ProFouND website acts as the face of the project providing information to the community and the general public about the project. It is primarily directed at falls-related healthcare professionals and practitioners and also aims to inform members of the public (older people and their formal and informal carers) as well as European Institutions and falls-related organisations.

The OIF areas of the website can be viewed as a public resource but the additional functionalities (including the ability to initiate topics, manage discussion on own topics, contribute to other users topics and see comments) are only available to users logged in to the user login area of the ProFouND website <http://ProFouND.eu.com/forums/forum/innovation-factory/>.

Users are advised upon logging in to ProFouND that any information that they share on the website, either in the form of discussion content, uploaded research & briefing materials, or video sharing file formats, is, unless specifically stated, liable to be copied and redistributed by other users given the collaborative nature of the website. Similarly, this will also apply to users of the on-line Innovation Factory.

2. Launch of the OIF

The on-line Marketplace and Innovation Factory platform was subject to a “soft” launch at the end of February 2015.

This has taken place in three stages, outlined below and in Section 3.

Stage i: Pre-population

Pre-selected ProFouND partners from across national, regional, and local government and health & social care bodies, together with partner organisations and projects such as E-NOFalls, the European Connected Health Alliance (ECHAlliance), and strategic special interest bodies such as Age UK, were contacted and invited to register with the ProFouND website (if not already members) and populate the OIF with resource materials, suggested challenges & initial discussion.

A list of the organisations contacted is at Annex A. These comprise EIP AHA Action Group 2 members, totalling 18 commitments in more than 10 countries. This list should also be read in conjunction with the ProFouND partners in attendance at the partners’ meeting listed at Annex B.

Stage ii: ‘Informal’ launch

As a pre-task to the ProFouND Partnership meeting that took place on Monday 23rd March 2015 users were asked to test the partly pre-populated website and its functionality and to feedback on their initial experience of using the Innovation Factory.

At the Partnership meeting itself, after a brief presentation on the history and development of the OIF, a workshop took place which encouraged attendees to:

- Add content by:
 - Creating a challenge for discussion
 - Making a tailored comment on either a desired outcome / solution / implementation

OR

- Uploading resource materials to the ProFouND repository and adding comment in the relevant OIF section with a link to that resource.
- Providing general feedback on the functionality and ease of use.

A full list of delegates who attended the ProFouND consortium meeting is at Annex B.

Delegates at the ProFouND consortium meeting workshop

3. Networking Event

The third stage of the “soft launch” approach outlined above satisfies Deliverable D7.3 - Networking event to encourage partnership working.

Stage iii: ‘Formal’ launch

The OIF, incorporating ongoing development and feedback from users, was launched and displayed publicly at the EU Falls Festival, Stuttgart, 24th – 25th March at the Robert Bosch Krankenhaus.

The Festival brought together leading academics, researchers, health care practitioners, clinicians, industry representatives and key stakeholders from across the globe to celebrate best practice research and innovation in the multidisciplinary study and implementation of falls prevention in older people. Further information on the event can be found at www.eufallsfest.eu

Over 200 people attended the event. A full list of delegates who attended the Festival is at Annex C.

The OIF was showcased over the two day festival via:

- a. an exhibition stand in the ATRIUM of the Robert Bosch Krankenhaus during the two days of the Festival

The ECHAAlliance stand exhibiting the OIF

- b. a live ‘demonstration and discussion’ of the OIF as part of the Project Showcase Workshop on the afternoon of the 24th March

A full list of the 200 plus delegates who attended the Showcase Workshop is at Annex D.

4 Conclusions & Next Steps

The OIF has been well received to date. A number of positive comments were received from delegates at the EU Falls Festival.

In the run up to the Falls Festival, and during ProFouND consortium meeting and Festival itself:

- new topics were created
- unique individual users registered and created a new profile
- posts were posted

Similarly, feedback has led to some changes being built into the functionality of the OIF to enhance user experience. For example, the response will now not post unless an appropriate component category is chosen (previously, the default setting had been to post a response under the 'Challenge' heading).

The next stage is to maintain the momentum generated by the interest shown at the EU Falls Festival and continue to develop both the content of the OIF and raise awareness of it amongst falls professionals as a resource.

The OIF aims to provide a platform for a wide range of stakeholders (including industry, academic researchers, healthcare professionals and practitioners) across Europe to collaborate on: scoping out the need for ICT based technologies for falls prevention and monitoring in specific regions and circumstances; identifying the most suitable falls prevention and monitoring technologies and developing plans for implementation.

A two-pronged approach is being adopted to encourage the generation of content and engagement with the OIF.

- a. focussed involvement with local organisations in one region (Greater Manchester – a WHO Age Friendly City) including:
 - Engagement with Age UK North West leads (e.g. Manchester Institute for Collaborative Research on Ageing (MICRA) event held on 17th March 2015).
 - Working with Manchester City Council as an 'Age Friendly City' to promote the OIF as a tool for practitioners and interested parties
 - Connecting with the Directors of Adult Social Services within the 10 AGMA local authorities.
 - Meeting with Central Manchester Foundation Trust Falls Team (part of Central Manchester Intermediate Care Services) & the Pennine Care Foundation Trust Falls Partnership within Trafford Community Services.
 - Participating in the November 2015 Policy Week focus on 'Science, Technology, and Public Policy'.
 - Promotion through the Greater Manchester Connected Health Ecosystem.
- b. Broader engagement with the wider community at a European level of the technology industries, clinicians, health care practitioners, researchers and academics working on falls prevention and monitoring, through:

- Promotion of the OIF through the ECHAlliance network of Connected Health Ecosystems, with a view to running a co-delivered event in both Manchester and another similarly well-developed Ecosystem on the subject of Active Ageing / Health Living, in which the work of ProFouND and the OIF will be showcased and promoted.
- Working with Work Package 8 Leaders, to identify national and local partnership networks where the use of technology has been identified as part of best-practice.
- Working with the EIP AHA B3 Group members in NHS Scotland to build upon the work they have already undertaken in developing an ICT & Teleservices directory.
- Working with the EIP AHA A2 Group members to promote the work they have done in identifying best practice reference sites for falls prevention and monitoring.

Annex A

Organisations contacted as part of the OIF Stage i: Pre-population

EIP AHA A2 Commitments

Activating Falls & Fracture Prevention in Ireland Together (AFFIN)

Flemish Center of Expertise for Fall & Fracture Prevention (EVV)

Ageing Well in Wales (AWW)

Initiative on Prevention of Falls (PREF)

Care and Action to Reduce Elderly Falls (CAREfalls)

Never Fall Network: Regional network for falls prevention in Jyvaskyla region (NFN)

Cross Sectoral Collaboration on Health & Prevention (RSDK)

Optimisation of falls prevention (Optifalls)

Effective Strategies for Preventing Falls & Fall-related Injuries

Prevention of falls initiative in Emilia-Romagna (PROFITER)

Establishment of Centers committed with to the use of best practices to prevent falls (BPCC)

Region Skane (SKANE)

Fall Competence Center (FCC)

Regional Fall Prevention Network Nijmegen (RFNN)

Fall Prevention – For an Active Aging in Community: Four European Cities (FP-FAAC: 4EC)

Regional Falls Prevention Cooperation (REFACO)

Falls prevention in the elderly (PFALLS)

Up and About Plus – taking a National Falls Prevention Programme to scale (UAPLUS)

Annex B

ProFouND Consortium Meeting Attendees (Monday 23rd March 2015)

First Name	Surname	Organisation	Partner Number
Aggeliki	Giakoumaki	National Centre For Scientific Research Demokritos	11

Annex C

EU Falls Festival Registered Delegate List (Tuesday 24th & Wednesday 25th March 2015)

Title	Firstname	Surname	Job Title	Company
Mrs	Åsa	Bygdeson	Development Leader	R&D Welfare Region Vasterbotten Sweden
Mr	Aaron	Haslbauer	Student	Robert-Bosch-Krankenhaus GmbH
Dr	Ad	van Berlo	Manager R&D	Smart Homes
Dr	Aggeliki	Giakoumaki	Researcher	NCSR
Mr	Alan	Bourke	Post-doctoral Researcher	EPFL/NTNU
Dr	Alberto	Ferrari	Research Fellow	University of Bologna
Mr	Alex	Hall	PhD Student	University of Manchester
Mr	Alexander	Walker	Business Development Executive	PAL Technologies Ltd
Mr	Alexander	Konradi	Student	Hamm-Lippstadt University of Applied Sciences
Ms	Alexandra	Korall	PhD Candidate	Simon Fraser University
Dr	Alexandra	Mavroeidi	Lecturer	University of Aberdeen
Ms	Alina Delia	Calin	Chief Research Officer	MIRA REHAB Limited
Dr	Amanda	Clifford	Lecturer	University of Limerick
Prof	Ana	Teixeira	Lecturer/researcher	Coimbra University, Portugal
Ms	Ana	Ramovs	Managing Director	Anton Tstenjak Institute, Slovenia

Mr	Andreas	Ejupi	Researcher	AIT - Austrian Institute of Technology
Mr	Andrei-Catalin	Cantea	Chief Product Officer	MIRA Rehab Limited
Prof	Andreu	Catala	Professor	UPC
Mrs	Anja	Kappes	PhD student / Scientific employee	University of Stuttgart
Dr	Anna Cristina	Åberg	Associate Professor	Uppsala University
Mrs	Anna-Karina	Grebe	Project Manager	Bosch Healthcare Solutions
Prof	Antonio	Cherubini	Director	IRCCS INRCA
Mr	Antonios	Korakis	R&D in Computer Systems	NCSR Demokritos
Dr	Armagan	Albayrak	Assistant Professor	Delft University of Technology
Dr	Ather	Nawaz	Postdoc	Norwegian University of Science and Technology
Mrs	Atia	Cortas Martinez	PhD student	Universitat Politacnica de Catalunya
Dr	Avraham	Cohen	Clinical Director	Meditouch
Prof	Bart	Vanrumste	Researcher	KU Leuven
Prof	Beatrix	Vereijken	Professor in medicine/movement science	Norwegian University of Science and Technology
Dr	Bozidar	Volja	Scientific Counsellor	Emonicum Institute of healthy and active life
Mr	Brian	Jacobsen	Project Manager - Welfare Technology	Holbaek Municipality

Mr	Bruno	Aguiar	Scientist	Fraunhofer Portugal AICOS
Mr	Bujar	Badalli	Marketing Manager	Dividat GmbH
Mrs	Carolin	Barz	Sport Scientist, Gerontologist	Department for Sports and Physical Activity
Prof	Chris	Todd	Professor of Primary Care & Community Health	University of Manchester
Prof	Christian	Grueneberg	Researcher, Physical Therapist, Dean	Hochschule far Gesundheit
Prof	Christian	Thiel	Sports Scientist, Prof. of Physiotherapy	Applied University of Health Sciences
Mr	Christopher	Moufawad el Achkar	PhD Student	EPFL
Prof	Clemens	Becker	Head of Department	Robert-Bosch-Krankenhaus
Ms	Corinna	Oberle	Student	University of Stuttgart
Mrs	Corinne	Meurs	Vice President	McRoberts
Dr	Cristina	Rusu	Senior Expert	Acreo Swedish ICT AB
Mr	Daniel	Smedberg	Improvement leader	Skayne Association of Local Authorities
Mr	Daniel	Morley	Project & Business Development Manager	University of Manchester
Dr	Daniel	Schoene	Post Doc	Institute for Biomedicine of Aging

Ms	Daniela	Blasius	Student	University of Applied Science Trier Germany
Mr	Daryoush	Vaziri	PhD Student / research associate	University of Siegen
Prof	Dawn	Skelton	Professor of Ageing & Health	Glasgow Caledonian University
Prof	Dominique	Knittel	Professor	University of Strasbourg
Mr	Douglas	Maxwell	CEO	PAL Technologies Ltd
Prof	Eling D	de Bruin	Senior Researcher	ETH Zurich
Mrs	Elisabeth	Schulte	Student M.A. Sportgerontology	German Sports University Cologne
Dr	Elisenda	Reixach	WIISEL Coordinator	Cetemmsa
Ms	Ellen	Vlaeyen	Research coordinator and PhD student	Expert centre Fall & Fracture prevention - BE
Dr	Ellen	Freiberger	Associate Professor	Institute for Biomedicine of Aging FAU
Prof	Elvira	Kuhn	Professor	University of Applied Sciences
Dr	Emma	Stanmore	Lecturer In Nursing	University of Manchester
Mr	Enrico	Valtolina	Innovation Manager	bticino
Dr	Erfan	Shahabpoor	Research Associate	The University of Sheffield
Dr	Espen	Ihlen	Post Doctor	NTNU

Mr	Esteban	Guerrero	PhD Student	Umea University
Dr	Estelle	Courtial	Researcher	SingularLogic
Mrs	Fanny	Breuil	WIISEL Coordinator	CETEMMSA
Dr	Federico	Chesani	Researcher	University of Bologna
Prof	Feo	Kusmartsev	Head of Physical Department	Loughborough University
Mrs	Francesca	Cesaroni	Project Management	COOSS Marche
Dr	Francesco	Barban	Researcher	Santa Lucia Foundation
Dr	Francesco	Benvenuti	Director	AUSL11
Mr	Franco	Chiarugi	Senior Technical Staff	FORTH- Institute of Computer Science
Prof	Frank	Verbeek	Managing Director	Gociety.eu
